18 EA - Oxygen Mask Part# MC-10-15-157 or equal
18 EA - Smoke Goggles Part# MXP210-00 or equal

Quote shall include delivery of nine (9) oxygen masks after receipt of award and then the remaining masks 120 days after the first delivery

ITEM FORM, FIT AND FUNCTION (JAN 1997)

CLA.1047

(a) The item(s) to be purchased as a result of this SIR must be compatible as to form, fit, and function, with those items specified in Part I, Section B.

(b) If offers for items other than those identified herein are received, offerors of such items are hereby advised that proof of form, fit, and function, is the responsibility of the offeror. Such proof shall be submitted with the offer and form, fit, and function, must be ascertainable within a reasonable time in order to be considered on this acquisition.

(c) The FAA may or may not be able to timely evaluate offers for items other than those identified in this particular acquisition. However, offerors are encouraged to submit complete engineering/manufacturing data, prototypes, etc., which may be evaluated for form, fit, and function, on future acquisitions of the item(s) identified herein.

(d) The FAA reserves the right to reject any offer received on this SIR which cannot be evaluated for form, fit, and function, as originally received, within a reasonable time.

1. Describe your resources and equipment available to meet this requirement.
